MAIN PRODUCT FEATURES

Biotin is a water soluble vitamin. Biotin is used for preventing and treating hair loss, brittle nails and Eczematous skin rashes.

- Bamboo shoot extract: Bamboo is one of the best organic sources of silica. Silica deficiencies can lead to unfortunate health problems, including poor-guality skin and hair and an increased risk of wrinkles.
- Emblica officinalis: Amla (Indian gooseberry) is a proven hair tonic; it enriches hair growth and hair pigmentation. Amla is also excellent for strengthening the roots of hair, maintaining color and luster. It is also known to prevent scalp infection and controls premature graying of hair.
- Calcium pantothenate: Pantothenic acid, or vitamin B5, is an essential part of a healthy diet. Deficiency of this vitamin can harm your hair follicles, which leads to hair loss.
- L-Cysteine & DL-Methionine: Cysteine &Methionine are one of the many amino acids that are necessary for healthy hair growth. Cysteine and methionine also supplies sulfur to hair cells to improve hair strength. Cysteine is also known to bind to and transport minerals such as iron and zinc which are essential agents in the reversal of hair loss.
