

# ARGINOX<sup>TM</sup>

L- Arginine complex Plus Antioxidants

**Powerfull Vascular dialation Support for both macro and microcirculation**

## ARGINOX<sup>TM</sup> -L-Arginine Infussion Helps To:

- Supports muscle metabolism and energy\*
- Supports heart health and circulation \*
- Improve workout performance \*
- Faster recovery on muscle loss \*
- Supports liver and kidney functions \*
- May promote hair growth.\*
- Support sexual functions.\*

### Likely Users:

L-Arginine is a semi-essential amino acid -- meaning it must be obtained through the diet since the human body cannot produce it internally --that is found in meats, legumes, nuts, seafood and many green vegetables. Users take this daily to treat or protect themselves from heart disease, chronic migraines, high blood pressure and sexual dysfunction. Improve the circulation to the hair roots and stimulate hair growth.

### KEY INGREDIENT(S):

L-Arginine, L-Citrulline, Taurine, Proanthocyanadins, Grape seed extract, Cranberry and Lycium extract.

### MAIN PRODUCT FEATURES:

- L-Arginine/L-Citrulline & Taurine Complex is a powerful combination which supports metabolism, protein synthesis, liver detoxification and energy . The L-arginine in the product supports nitric oxide (NO) production, which is beneficial to the heart and blood vessels. This is a combination supplement designed to enhance peak performance naturally and support exercise and workouts.
- Arginox Supplementation may allow for increased ammonia elimination in the urea cycle and may relieve muscle fatigue. Also, studies have indicated an increase of oxidative ATP synthesis to energy production during exercise and increased recovery after exercise.

### SUGGESTED USE:

As a dietary supplement, take 1 spoon (6g) in 150 ml purified water 1-2 times daily on an empty stomach.

**Warning:** If you are pregnant, may become pregnant, breastfeeding, have a history of heart disease, hypotension, renal or hepatic failure, or are taking any prescription medication such as nitroglycerin or any drug for erectile dysfunction, consult your physician prior to using this product. Not recommended following acute myocardial infarction. Not suitable for children below 18 yrs.
