

Fat Control & Metabolic balance

Natural Weight Management Formula

HEALTH BENEFITS*

4 in 1 Formula gives you all natural weight loss ingredients in a nutshell, one single capsule. It enhances metabolic function and appetite control system. It also reduces fat without lifestyle changes.

MAIN PRODUCT FEATURES

Cara Trim Blend: An integrated scientifically proven blend of Caralluma fimbriata, Garcinia cambogia, Green tea and Alpha lipoic acid with enhanced bio absorption with the help of pepper extracts

- **Caralluma fimbriata:** Caralluma fimbriata contains pregnane glycosides which block the activity of citrate lyase enzyme thus blocking the formation of fat by the body. It also accelerates the rate of fat loss by the body.
- **Green tea extract:** Active component, catechin helps to lose weight by influencing intestinal and cell metabolism in several ways. It inhibits the intestinal lipases which in turn decreases the fat absorption and increases the fat excretion.
- **Garcinia cambogia:** The active component in this fruit is hydroxycitric acid or HCA has boosted fat-burning and cut back appetite in studies. It appears to block an enzyme called citrate lease, which your body uses to make fat. It also raises levels of the brain chemical serotonin, which may make you feel less hungry.

KEY INGREDIENT(S)

Caralluma fimbriata Extract, Garcinia cambogia, Coleus forskohlii, Green Tea, Alpha lipoic Acid, Guggulsterone and Pepper extracts.
