

### Formulated For Maximum Bioavailability

#### HEALTH BENEFITS\*

*Enhances Mobility with its anti-inflammatory properties, Reduces Oxidative Stress on Joint tissues, Enhances blood supply to joints, Showcases Anti-oxidant activity, Enhances Anti-protozoan and Anti-bacterial activity, Initiates Anti-tumor and Anti-cancer activity, Increases Hepatoprotective activity.*

#### MAIN PRODUCT FEATURES

**Bioactive Curcumin Complex:** Strong anti-inflammatory properties and higher bio absorption at low doses.

- **Turmeric Extract (curcumin):** Clinical researches indicate that the active ingredient curcumin have unique antioxidant and anti-inflammatory, anti arthritis, anti coagulant, anti hypercholesterolemia and anti- microbial properties.
- **Black pepper extract:** High purity 95% Piperine content for enhanced action. When curcumin is consumed alone - its serum levels are either undetectable or very low. However, when combined with Piperine (a component of black pepper) its serum level rises dramatically and its bioavailability increased by twenty-fold.

#### SUGGESTED USE

Take 1 capsule two to three times daily with a meal.

#### KEY INGREDIENT(S)

Curcumin (Turmeric Extract), Pepper Extract

#### LIKELY USERS

People who need long- term joint strength, people experiencing morning stiffness and Joint pain, people who need colon cancer support, healthy blood flow to the brain and healthy neurological function.

#### OTHER IMPORTANT ISSUES

**Pro-immune activities:** Curcumin encourages it by suppressing the activity of pro-inflammatory mediators; Curcumin might help the regulation of several autoimmune disorders including Alzheimer's disease, multiple sclerosis, diabetes, asthma, allergy, inflammatory bowel disease, rheumatoid arthritis, psoriasis and scleroderma.

**Anti cancer:** One of the major curcumin benefits is its inhibitive effect on cancer cells. By destroying the blood vessels that feed cancer tumors it prevents or slows their growth. In clinical studies, curcumin extract has been shown to increase the efficacy of many anticancer drugs.
