

MetaB12

Sublingual Rapid Recovery of Vitamin B12

Enhancing Life

ISO 9001:2015 Certified

Incredible Support for Neurons and Blood Cells

HEALTH BENEFITS*

Regulates the formation of red blood cells, Maintains and increases energy levels, recovers muscle fatigue, Digests carbohydrates, proteins and fats; Lowers homo cysteine levels (crucial for maintaining heart health); Normalizes neurological function; repairing body tissues; Contributes in the creation of bone marrow and DNA synthesis; Promotes mental alertness and focus; boosts energy and supports stable moods.

MAIN PRODUCT FEATURES

Vitamin B12, medically known as Cobalamin, is one of the components of the vitamin B complex.

- **Methylcobalamin:** It plays an important role in Haematopoiesis, prevention and treatment of pernicious anemia, methylation reaction, and immune system regulation. It boosts up the central nervous system. Because it donates methyl groups to the myelin sheath that insulates certain nerve fibers. Due to this reason it aids healthy sleep wake-cycle, as well as normal nerve function.
- **Sublingual Supplements:** These are put under your tongue and absorbed through the mucosal membrane that lines your mouth. Substances absorbed under the tongue get into the bloodstream without having to go through the gastrointestinal tract; otherwise the vitamin ends up in your stomach and defeats the purpose.

LIKELY USERS

Patients with Neuropathy problem; People who have hair fall and brittle nails; People who are anemic & have low energy levels; People who suffer from problem in sleeping & often get mood swings.

SUGGESTED USE

As a dietary supplement take the optimum dose (1500mcg) twice a day. Place the tablet under the tongue and allow it to dissolve in mouth and then swallow.

OTHER IMPORTANT ISSUES

Long term supplementation of folic acid and vitamin B12 may promote improvements in brain functioning in older people.

KEY INGREDIENT(S)

Methylcobalamin
