

Fensulin®

Plus Liposomic® Berberine

ISO 9001:2015 Certified

Strategic Formulation to Manage Blood Sugar

HEALTH BENEFITS*

Maintains healthy Glucose metabolism, Increases Insulin Sensitivity, Raise Glycogen storage in muscles, Raise the rate of glucose removal from blood, Reduce the risk of Insulin resistance, Drive nutrient uptake by muscles, Protect Liver cells and enhance Liver functions, Increase muscle performance in workouts.

MAIN PRODUCT FEATURES

Fensulin is a blood sugar control formula and is completely natural.

- **4-Hydroxyisoleucine** from fenugreek extract has been found to be very effective for regulating blood glucose levels while also increasing glycogen storage capacity in the muscle cells.
- **Liposomal Berberine** improves the absorption by 6 times than standard extracts which is clinically proven to improve insulin sensitivity by activating an important enzyme AMPK.
- **Cinnamon** has been shown to increase glucose uptake by activating the GLUT-4 receptor.
- **Fenugreek and Cinnamon** Safe traditional use as condiment /spices is scientifically studied.

SUGGESTED USE

As a dietary supplement, take 2 capsules 2-3 times daily with meal. Must check blood sugar once a week for first 2 weeks and coordinate with your health advisor / doctor on any change in medication dosage.

KEY INGREDIENT(S)

Fenugreek seed extract, Berberis aristata, Cinnamon bark extract, Clove, Pterocarpus marsupium, Gymnema Sylvestre extract, Alpha Lipoic Acid and Chromium polynicotinate.

LIKELY USERS

People under stress induced metabolic disorders, Type-2 Diabetes, Type-1 Diabetes; those trying to overcome metabolic disorders, cholesterol management, Muscle performance and post-workout supplementation.

OTHER IMPORTANT ISSUES

The plant Trigonella foenum-graecum, from which the fenugreek seed extract comes, has been historically used as antispasmodic, appetite stimulant, high cholesterol, wounds, blood cleanser, and expectorant effects.

Liposomal is a new technology which integrates Liposomal absorption technology along with metabolomics for pathway synergy of nutrients for amplified efficacy and maximum utilization.
